

**ENGINEERING H192  
PRELIMINARY ASSIGNMENT 07**

Convert the following statements into C statements using proper syntax and clear formatting. You may assume that all variables have been properly declared and initialized.

1. **If** a is greater than or equal to b **and** c is less than d, print "You will be...you will be."

---

---

---

---

---

2. **If** dog is greater than cat, print "Named must your fear be before banish it you can." **otherwise** print "Not if anything to say about it I have."

---

---

---

---

---

---

---

---

---

---

3. **If** x is less than yoyoma **or** einstein is equal to lightspeed, print "Mine, or I will help you not." **otherwise if** oxgang is less than bunder, print "Try not. Do or do not, there is no try." **otherwise** print "Help you I can, yes."

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

4. **If** mountain is greater than molehill, print "Already know you that which you need." **otherwise if** hindsight is equal to twenty\_twenty, print "Always in motion is the future."

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---
